Guiding you through all logistics challenges.

Almost every company is doing business with China nowadays. However, operating in China has its own complexities. Knowledge of local regulations is important for your success and you can rely on Go-Trans to guide you through the logistics challenges. Its current service portfolio includes worldwide sea freight and air freight services, logistics services and distribution in China as well as customs clearance and NVOCC activities. All Go-Trans offices in China are Wholly Foreign Owned Enterprises (WFOE's) and operate with an A-license.

As a partner of leading airlines, we can offer you the cargo capacity you need. Our offices in Hong Kong and Mainland China are connected to Gondrand's international air network with various carriers and agents.

Our service portfolio.

Air- and Sea Freight

We will transport any type of goods, either as single or consolidated shipments, via all major airports to any continent and we are present at all major Chinese ports. Experts coordinate every stage of the transport chain, moving goods via ports efficiently with optimized routings from door to door - worldwide.

Logistics

To support the development of your supply chains, we are offering customized logistics solutions that meet your needs. Our experience in local Asian markets enables you to concentrate on your core business.

Customs

Organizing customs clearance or applying for licenses via our experienced customs specialists at ports and terminals guarantees that your goods are always on the move.

Fair Logistics

We provide efficient logistics solutions for trade fairs, events, exhibitions, transportation and customs procedures.

Customised solutions that meet your requirements.

Our head office for Mainland China is located in Shanghai.

Project Forwarding

We take over parts of your project or assume the entire project handling - integrated solutions are just as feasible as turnkey handovers. Our dedicated teams not only realize the transport of individual oversized bulky goods but also implement entire industrial projects.

Distribution

Pick-up, delivery and distribution? We ensure timely and reliable trucking of your goods in this dynamic region. Our network and professionals throughout China organize the distribution of smaller shipments as well as full truckloads.

Intermodal

Intermodal traffic is rapidly gaining popularity, especially since the railways' privatization. With transport by rail, your benefits include a higher load capacity, an eco-friendly solution, daily departures and years of experience.

Cool Chain Solutions

We offer you smart solution in cold chain logistics. Our specialized team is always available in the field of pharmaceutical and medical technology for transport and storage solutions for temperature-sensitive and perishable goods.
